

Pest treatment

Our Products

The products we use are modelled on nature's very own insecticide 'pyrethrum' derived from the Pyrethrum Daisy and are completely colourless, odourless, simple and effective. They are manufactured to eradicate almost all invasive pests, including:

- Termites (White Ants)
- Ants
- Silverfish
- Wasps
- Mosquitoes and Midges
- Fleas
- Pantry pests (weevils and pantry moths)
- Caterpillars
- Lawn Beetles
- Rodents
- Cockroaches
- Millipedes
- Crickets
- Bees
- European Borers
- Ticks
- Bed Bugs
- Cape Lilac Moths

Our Treatments

Our treatment areas are comprehensive and include:

- Every external wall (top to bottom)
- Windows frames
- Door frames
- Eaves
- Gutters and down pipes
- Alfresco and pergola areas
- Outdoor furniture
- Children's play equipment
- Sheds (inside and out)
- Bins
- Letterbox
- Perimeter fence lines including capping
- Pool fencing
- Roof voids
- Washing lines
- Cubby houses
- Granny flats and extensions
- Windows frames

Did you know?

We also offer a treatment for white wax scale (found on citrus fruits and hedge). Contact us for a factsheet.

Pest treatments are guaranteed for a minimum 4 months.

All treatments are safe for your family and pets.
